The Power to inspire

About Us.

Introduction

SKYLARK ENERGY SOLUTIONS is a globally recognized leading solar energy solutions provider, specializing in high efficiency PV module comprehensive EPC solutions. We are working in Institutions, Residential Colonies, Office Buildings using Electricity on Large Scale, Schools, Colleges, Universities, Government Offices, Giant Industries, Film Makers, Hotels, Restaurants, Cinema Halls, Terrace House Etc

SKYLARK ENERGY SOLUTIONS is 100% Indian owned and has years of experience in developing solar solutions, project management, innovation, Finance options and helping the development of the local industries. We have the capability to manage any kind of system and installation and lead all our projects to fruition through the highest standards of performance and service quality

Mission & Vision.

MISSION

Our mission is to ensure that solar energy becomes an affordable source even for the masses by tightly managing our own costs so that the savings pass on to you – our valued customers.

VISION

Our aim is to build forge robust and valued relationships with our customers and provide the same level of dedication and customization to all our projects.

Superior customer service backs our high quality products and components. We endeavor to reduce customer effort to the minimal and take complete responsibility of the entire process right from product explanation to installation and even beyond.

OUR SERVICE

A rooftop solar system is an excellent power generating system. With our high skill and state-of-the-art technology, we offer cost-effective rooftop solutions

you can transform your rooftop into a solar power plant which is an excellent source of solar energy, for both commercial and residential consumers.

BENIFIT

Efficiency with Trust
Self-Sufficient source of energy.
Uninterrupted power supply with rare down-time.
No bills from your utility grid & power companies.
Independent of non-renewable energy

GROUND MOUNTED SOLAR SOLUTIONS

SKYLARK provides ground mounted solar solutions designed and engineered based on the client's site specific conditions. With diligent project planning and accurate execution, our solutions are tailored based on the uniqueness of your requirement.

We provide a wide range of ground-mounted solar solutions offering freedom and flexibility to support PV modules of various types.

BENIFIT

Best value with economy of scale and cheaper installation, material and labor
Streamlined pre-reassembled installation ensuring best in class strength & durability
Sustainability by embracing social responsibility towards renewable energy targets.

EPC SERVICE

We provide turnkey solar EPC solutions. Our customer centric engagement model with technical expertise offers the best in class customized end-to-end solar solutions.

By minimizing grid consumption, each individual can reduce their carbon dependence. We offer the best quality Solar PV installations to our customers and our systems will be installed by Certified installers. Book a free solar site analysis today. Our experts will visit you to evaluate your available space and budget and walk you through the installation process, available incentives and how net-metering works

BENEFIT

Solar PV Modules have no moving parts and so require no maintenance

Modules are available in varied dimensions enabling space saving installations with maximum output from a minimum required area..

The continuous falling prices of solar cells and components and benefits & incentives provided by state and central governments make it an attractive investment and an affordable choice for residences and business owners.
